In order to deliver the Vision which sets out what Thurston might look like in 15 years-time, Thurston's Neighbourhood Plan sets out to meet a series of draft objectives:

- Objective One: Preserve and enhance the built, natural and historical environment of the local area as well as maintaining and enhancing its distinctive characteristics.
- Objective Two: to encourage the development of appropriate housing stock that reflects the needs of current and future residents.
- Objective Three: To improve the physical infrastructure serving both the residents and the wider local community.
- Objective Four: To develop and sustain the key service centre status of Thurston by encouraging development that supports a range of employment and services.
- Objective Five: To develop a vibrant and prosperous neighbourhood by encouraging businesses, services and housing along with safe road and footways.
- Objective Six: To protect and enhance open and green spaces, and maintain access to the countryside and retain the separate identity of Thurston as a rural village.
