

Suffolk Local Parishes Online Webinar

Date and Time – **Tuesday 15th October, 17:00 – 18:00**

As we create the Local Nature Recovery Strategy, we aim to enhance the positive effects of nature on **community wellbeing**, contributing to improved mental and physical health through direct and indirect benefits. Our spatial strategy has the potential to unlock **opportunities for local councils** to meet environmental and social goals and aid in aligning local and neighbourhood plans with countywide objectives

Therefore, the **Norfolk and Suffolk Nature Recovery Partnership** invite you to attend an online webinar, where we aim to update you on the current **progress of the strategy**, share our **shortlisted priorities** and **demonstrate the mapping tools** developed to identify where action for nature will have the most impact. This will enable you to signpost and highlight potential for your town or village to deliver key measures and embed nature recovery in your community.

Please follow this [link](#) to register your interest, and we look forward to seeing you there.
