time, and need to get to Zero Carbon emissions by 2030.

What is a climate and nature emergency and why do we need one?

greater than previously thought and we are currently heading for a catastrophic 3°C rise. We are running out of

The recent 2018 Intergovernmental Panel on Climate Change (IPCC) report on Climate Change which is summarised here or in wikipedia, states that we have already caused a 1°C rise in global temperature. The difference between the impacts of global warming of $2^{\circ}C$ and $1.5^{\circ}C$ is much

commitment to work towards a specific measurable target. It might seem that a Parish Council can't really do much, but Climate change is relevant to many of our activities... • Creating green space in the village

Growing numbers of parish, town and county councils are declaring a Climate Emergency. This is a genuine

• Working to improve public transport

- Providing feedback on wider council strategies for transport, housing as well as specific feedback on planning applications.
- This proposal provides justification to treat climate change as a factor in future decision making. • All levels of government national, regional and local, have a duty to secure our community from the negative impacts of climate breakdown. Local government should not wait for national government to change their
- policies. Ide Parish Council (PC) declared a climate emergency on 20th March 2019.

The Climate event on 12 feb was a great success, around 60 people came, the speakers were

kindly looking after a folder for these. If you don't have the Climate Questionaire, you can download it and amail

completed questionnaires. If

to climate@stygian.org.uk or hand in at the shop. So, for those who missed the public meeting, we listened to three inspiring speakers:

Thank you to everyone who came to the public meeting on the 12th February and thank you for all your

anyone still has one of these, please drop it in to the lovely people in Ide Community Shop who are

Kate Willett from the Met Office managed to make her talk on climate change informative, disturbing and hopeful all at the same time and all in fifteen minutes. Then Richard Cottle and Andy Bragg talked about what we can do to help, from national and local perspectives.

greenhouse gas emissions. If we can help by organising projects or attracting funding then we would love to do that. So when we have looked through all the questionnaires from the 12th we will have a better idea of what the

local community shop they are committed to try and be more eco-friendly. To that end, in conjunction with the village hall they have installed a drinking water tap outside the shop. Please do feel free to top up your reusable drinking bottle. Soon they will be on the "Refill app" an online phone app dedicated to promoting reusable bottles and free water to the public and reducing the use of single use plastic.

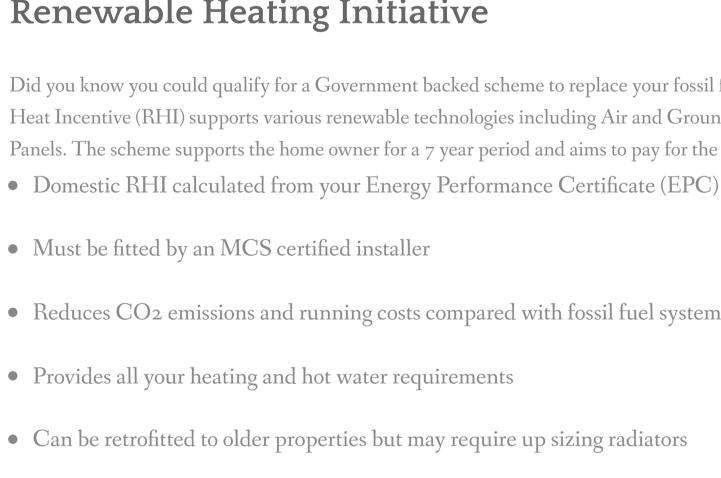

At a recent Ide Parish Council meeting it was agreed that Ide PC would sign the Devon Climate Declaration, This is much in line with what we are doing already in the village, but we want to be working together with county, district and other parish groups as much as possible. There is a full link to the declaration here https://www.devonclimateemergency.org.uk/devon-climate-declaration/

One thing we hadn't expected when the CE group started was how much we would be surrounded by people

with the same concerns. At a recent meeting we had visitors from Dunchideock and Hittisleigh, and we are in

touch with Kenn Parish Council, all finding inspiration in the great support from Ide community.

you would be prepared to do that please get in touch. climate@stygian.org.uk We are Working with the School to get solar panels. This will reduce the carbon footprint of the parish, reduce our schools electricity bills and is a learning opportunity.

details on the scheme

- Support the climate strikes • Contact our MP and ask what they will do to combat climate change.

• Use a reusable water bottle, don't buy water in plastic bottles.(also saves money). Use the Refill App to find

• Use low energy lightbulbs (also saves money).

What is Ide doing about the climate and nature emergency

- (thanks Ian Campbell for this section of
- After what seemed like a bit of a marathon dealing with the planners, obtaining a Carbon trust grant, checking the hall roof

conditioning. Projected cash savings look promising but we now wait to find out just how they are going to perform. Hopefully it will make good business sense and, importantly, make a contribution to reducing carbon emissions.

arranging a lease between the Hall and the Shop the new solar panels went live on 8th May. There followed a

• Local Governance. Local council passes a resolution supporting the journey to Plastic Free Community status. • Local Businesses. Work with businesses in your community to help them reduce single-use plastics. • Plastic free Allies. Inspire the wider community to spread the plastic-free message. • Plastic free events. Mobilise your community. Hold a clean-up, mass unwrap or other events to raise awareness.

Funding opportunities

Ide School

Teign

SAS also provide a framework for becoming a plastic free school.

What else could we do? and could you help us do it? We have lots of ideas for other things we could do. Have you got more ideas? could you help us develop any of these ideas? Please let us know. • Advice for residents and consumers.

surgeries.

by the shop trash screen.

• Tetra Cycle recycles crisp packets in some workplaces

• Library of things – things we can share rather than all buying one each.

• Permaculture and habitat in the village acts as a carbon sink

• Identify council owned land that could be improved as a carbon sink

• Look at effects of climate change on the local area eg flooding wildlife.

• Brand logo for the climate emergency project – signs outside the village.

• Contact other councils and cooperate. • Prizes, incentives.

• Set up an electric community car – hire by the hour, like the ones in topshap and exeter.

• Education events (eg at West Town farm. training session about the carbon cycle.)

- - Renewable Heating Initiative Did you know you could qualify for a Government backed scheme to replace your fossil fuel heating system? The Renewable Heat Incentive (RHI) supports various renewable technologies including Air and Ground Source Heat Pumps, Solar Thermal Panels. The scheme supports the home owner for a 7 year period and aims to pay for the renewable equipment and installation.

What simple things can we do right now to get started

text and the picture.)

structure, getting a Charities report and

Electric car charging points

free community" status we must meet these 5 objectives...

Ide Shop solar panels

Alternative Technology report with a similar target, setting out routes to carbon neutrality.

It is a rather unusual arrangement in which the panels have been fitted to the rear south facing hall roof for the benefit of the shop who have paid for the installation. The hall will be getting some rent for their roof. The shop has been paying nearly £4,000 per year for electricity because of the demands of its freezers, chillers and air-

the renewable proportion of the energy used in electric cars will increase. Would you be interested in using charging points? Please let us know. Plastic free Ide:

This is a Surfers Against Sewage initiative. https://www.sas.org.uk/plastic-free-communities/ to obtain "plastic

• Plastic free steering group. Form a group of local stakeholders and meet at least twice a year to take your community campaign forward.

We would like Ide to work towards plastic free status and we need a volunteer to become our plastic free

community leader, and help us work through these stages. Could you help? Please let us know.

- eventually the oceans! We would welcome anyone who wants to come along to get in contact and I'll try to organise some more dates/provide equipment." Please contact Charlotte Ives.
- Ide Parish council has a community fund that can help with projects. Teignbridge district council are taking their climate emergency declaration seriously and will be making funds available for qualfying projects.
- Lobbying national government eg about energy and transport • Get more young people involved, or any other type of people

• Training on influencing MPs and policy makers. Key points keep pestering, Use Clinics. Find out Mel Strides

• Flood risk in the fields behind Pynes farm which all drain into a conduit under the old railway. Also drainage

- Measure the carbon footprint of the village. There is useful information on Ashton Hayes web site.
- Promote renewable energy suppliers. • Start a Refill station
- Transition Exeter Extinction Rebellion Devon Climate emergency
- Ide PC 20 march 2019 Paper 4: Ide PC Climate change resolution

- The CEWG doesn't want to lecture anyone but we do want to make it easier for everyone in Ide to reduce our village wants to do. We want to turn ideas into action at our next event, which is on Saturday April 25th 2-4pm at
- Ide School. More details coming soon but we're planning to have stalls and workshops to help get some meaningful action started.
- We'll have a stall on local transport plus many more. Please save the date and please invite your friends, families and neighbours! More details in the April Ide Times. The Climate Emergency working group are keen to support and promote all relevant activities in the area. At our
- At the Parish Council meeting on Wednesday 15th January the PC considered a motion to support "Plastic Free Ide" Support and engagement from local government is one of the 5 criteria for the plastic free communities

award. This was agreed and the Plastic free ide project has taken another stop forward.

- We are looking for Climate Champions (or Climate Guinea Pigs). People who would be prepared to take an hour or so with one of our volunteers, to measure your household carbon footprint. Then look at ways to make changes and measure it again in a year. We will want to write about what we learn from it, but this can be anonymous. If

• Must be fitted by an MCS certified installer • Reduces CO2 emissions and running costs compared with fossil fuel systems • Provides all your heating and hot water requirements • Can be retrofitted to older properties but may require up sizing radiators Further details can be found on the Ofgem website: https://www.ofgem.gov.uk/environmental-programmes/domestic-rhi "Very excited on delivery of our new 9kW Air to Water Air Source Heat Pump. Ideally suited for properties with oil/wood/Lpg to convert and will reduce your energy bill and CO2 emissions. Provides all your heating and hot water. The government backed scheme pays for the installation over a 7 year period. Refer to Ofgem Website for

Measuring We have been looking at the committee for climate change report UK Net zero by 2030 and the Centre for

week of lovely spring sunshine and the first week of operation generated 230 Kwh; that's quite a lot of electricity that the shop did not have to buy.

vehicles even if they don't have access for electric cables between their house and their car. Switching to an electric vehicle means you reclaim energy when you slow down, and the energy you use (from the mains) is partly generated from renewable sources. As the country produces more renewable energy, and uses less fossil fuels –

If we could get electric charging points in the village this could make it feasible for residents to switch to electric

Litter Picking "We have been trying to reduce local plastic and litter. We have been provided with grabbers, high viz jackets and gloves from Radmore and Tucker and have been organising small groups to go out along the roads locally to pick up the litter. We

Ide School is running activities in parallel with the school strikes. There are lots of details in the June Ide Times.

hope to recycle what we can and also reduce plastic going into the water course and

Energy Communities http://teignenergycommunities.co.uk can fund large small projects and help with large ones. Their 2019 community fund is now open to all applications in Teignbridge. In the past they have funded low energy lighting in Teign school and Tedburn village Hall.

Do you know of any other funding sources? Or could you help with applications Please let us know.

• Bike services – some work places provide this service. We could do it in the village. Would you be interested? • Come and hear a speaker on Wildflower meadows?

- Work with the community shop. they already use local suppliers, getting solar panels. • Work with the primary school. • Work with West Exe School
- Renewable investment shared savings scheme. Gets installations sooner, by pooling saving and drawing lots for first service.

• ECOE by transition exeter. renewable energy investment.
